# KL1 Kuala Lumpur Carrier Access

Technical information on NEXTDC's Malaysia facility

## Overview

NEXTDC's KL1 Kuala Lumpur data centre is under construction and is due to open to the public in 1H FY26.

This information pack provides carriers with details on how to prepare to connect into NEXTDC's first Kuala Lumpur facility at:

NEXTDC KL1  
PT250, Jalan 51A/229 Seksyen 51A  
Petaling Jaya, Selangor  
Malaysia

Technical information is available for licensed carriers who have signed an NDA with NEXTDC.

## Timeline

The approximate date of when the lead-in conduits from the property boundaries to the building will be installed is October 2024.

Conduits from the building to the respective functional rooms are estimated to be completed in August 2025.

The opening to the public is planned for 1H FY26.

## Technical information

NEXTDC provides detailed technical plans to carriers under an NDA to support their planning and construction of lead-ins.

At this early stage of planning, the drawing below covers approximate information on pits, lead-in conduits, the communications pit and pipe network, and interconnect rooms (IRs). More details will be available roughly six months prior to the planned opening to the public.

## Further information

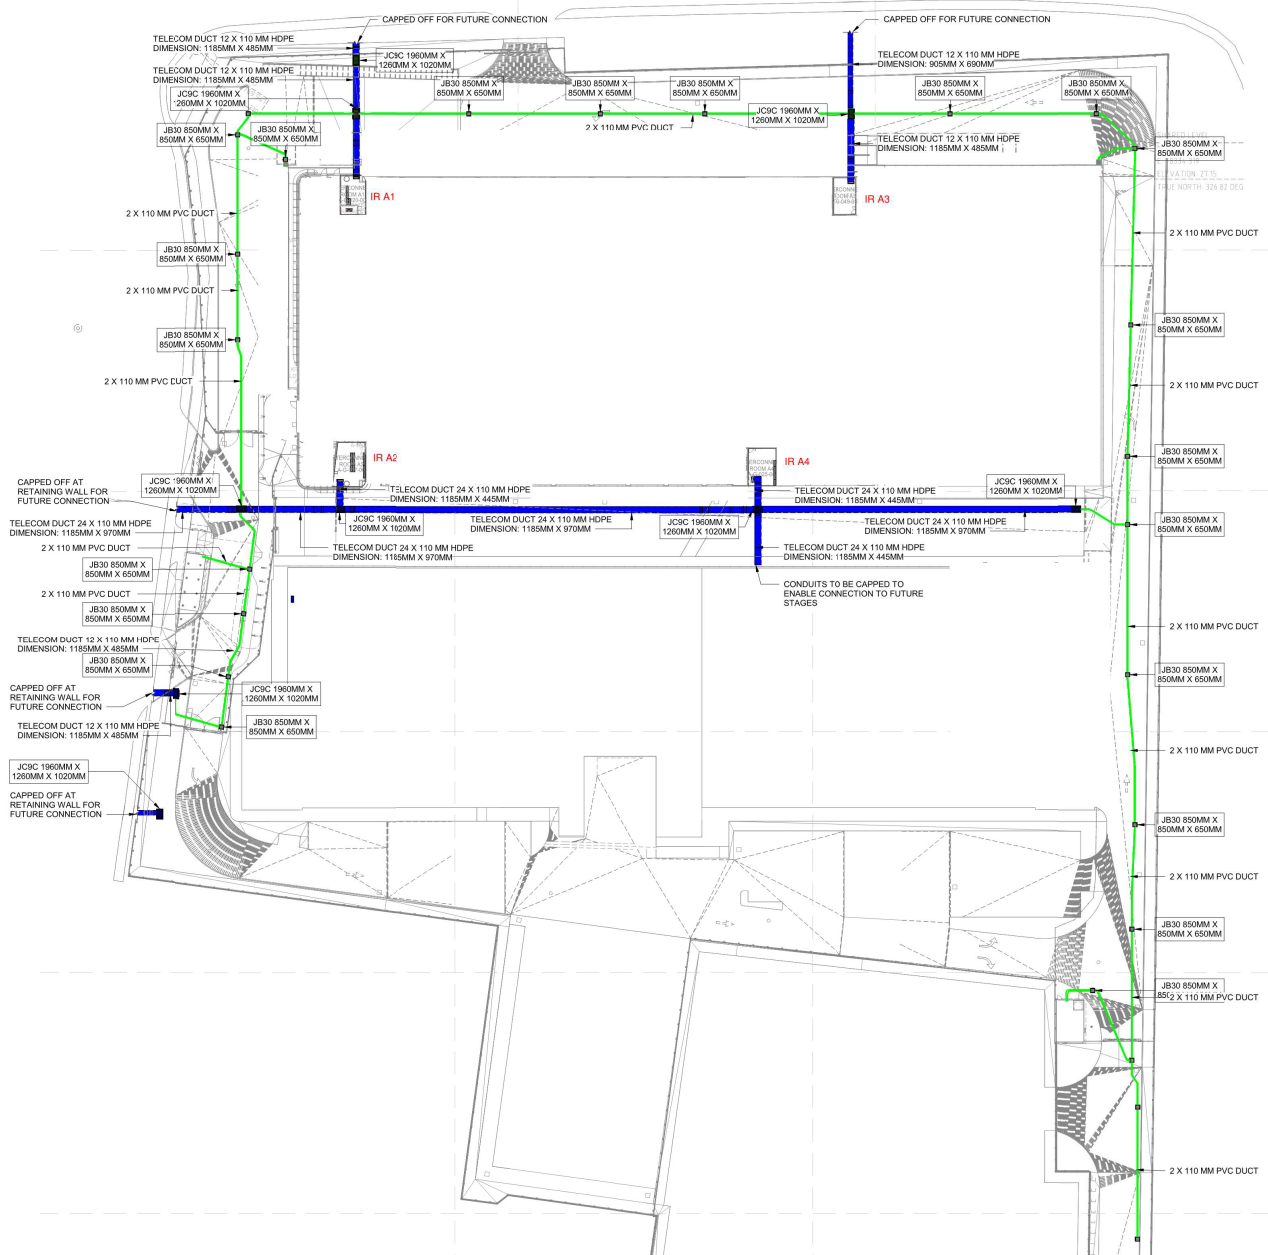

More general information can be found on the [NEXTDC website](#).

Whilst there is not yet more technical detail available for this specific facility, details of the installation process and installation requirements for all NEXTDC facilities in general can be obtained via your NEXTDC sales representative or [NEXTDC Customer Support](#).

Please discuss the commercial details with your NEXTDC sales representative.

Persiaran P.P Narayanan

Jalan 51a/225
